1	A Good morning.	1 BY MS. TANABE:
2	Q Could you please state your full name one more time for	2 Q Can you just take a look at the table that's on Page 6
3	the record?	3 of 84? Let me know if you recognize that.
4	A Danielle Harless.	4 A I recognize it.
5	Q And can you describe your educational background?	5 Q Okay, and were you present when Charles Aarestad, also
6		6 a banker at Red River State Bank, previously testified that
7	major in international business and Spanish, and I went to	7 the amounts on this table were due and owing as of the

9	that's a master's degree in banking.	9 A Yes, I was.
10	Q And what is your current occupation?	10 Q And do you agree with Charles's testimony?
11	A I'm a community banker.	11 A Yes, I do.
12	Q And how long have you worked in banking?	12 Q And do the per diem rates of interest look correct to
13	A Well, I was a teller in high school, but full-time	13 you?
14	since 2008.	14 A They look correct.
15	Q And how long have you worked for Red River State Bank	15 Q What was the interest rate? Do you know the interest
16	specifically?	16 rate on the first note?
17	A Full-time since July of 2008.	17 A 4.25 percent.
18	Q And how would you describe your experience or	18 Q Okay, and the second note?
19	familiarity with commercial real estate lending?	19 A 4.6 percent.
20	A I'm quite familiar with it. I started my career when	20 Q And the third note?

8	Q So you frequently loan to businesses?	8 distributions of Ruins note proceeds?
9	A Yes.	9 A Distributions meaning?
10	Q Okay, and do you know Jesse Craig?	10 Q Sorry. Did that declaration discuss loan disbursements
11	A Yes. He's a customer of Red River State Bank.	11 for the three Ruins notes?
12	Q And are you familiar with The Ruins project in	12 A Yes, it did.
13	Watertown, South Dakota?	13 Q And did you sign that declaration?
14	A Yes, I am.	14 A I did.
15	Q And are you familiar with the loan history between Red	15 Q And to the best of your knowledge, the information in
	River State Bank and The Ruins?	16 that declaration is true and correct?
17	A The loan history between Red River yes.	17 A To my understanding of what I know, yes.
18	Q So you're personally familiar with that customer	18 Q Okay, and how did you form your opinions about what's
19	relationship and those loans?	19 in that declaration? What documents did you review to

5	you. Sharon, I'll just ask you to scroll slowly through	5	for the language. They mean the same thing, but they're
6	Docket Number 177.	6	slightly different.
7	BY MS. TANABE:	7	Q Okay. So loan disbursement is money from The Ruins
8	Q And Danielle, could you just peruse that as we're going	8	first note that's being disbursed to the customer. Is that
9	to refresh your recollection?	9	your understanding of what's in the spreadsheet?
10	A Yep.	10	A In the spreadsheet on the right?
11	Q Is that helpful?	11	Q Yes, in Docket Number 84.
12	A It is. Yep.	12	A Yeah. So, like, on March 11th of 2022, there's a
13	Q Okay. Would it help if we parked on Page 3? There we	13	\$2,952,702.33 disbursement, which was Draws 4 through 6.

Would it be the bank or A Equity or a business owner. Somebody that typically has skin in the game with owning whatever the project is, they're the ones typically providing the cash. Q And what's the purpose from a bank's perspective or from your bank's perspective, what's the purpose of requiring a particular loan-to-value ratio for a project like this? A Equity provides a cushion for risk. As a bank, we're margin managers basically. So we want we mitigate risk. And one of the ways that we mitigate risk is by having the customer have skin in the game. It allows there's fluctuations in market, there's things that happen. Q If the loan-to-value ratio gets higher than a customary amount, what happens to the debtor's ability to make debt service? A It becomes much harder if they have a higher loan-to-value. Q So from your perspective as a bank, does it make the risk of default higher? A Yes. Q Okay, and so you just testified that a customary loan-to-value ratio for this type of property is probably like 75 percent. Why does this term sheet say 90 percent? A It says 90 percent because of the REDI program. The REDI program would allow the bank to reduce it would have reduced the loan-to-value inherently because of the economic development program. Q So what does I'm going to just direct your attention to the part of the agreement that says permanent phase loan amount. 9	Q So you're referring to before the recess, you testified	9	I'm going to kind of go backward and see if that's helpful.
10	that you had growing concerned or that there was something	10	MS. TANABE: Sharon, is it possible to go to
11	irregular about the loan and that you had asked Mr. Craig to	11	Exhibit B?
12	put in his own money into the project. Was that a factor in	12	BY MS. TANABE:
13	why he is listed as a borrower on this note?	13	Q Do you recognize this document?
14	A That would be, yes.	14	A Yep. This is the disbursement request and
15	Q And is it typical to have this many borrowers on a	15	authorization form.
16	note?	16	Q And which loan would this have been for?
17	A No, it is not typical. It's not typical because the	17	A That would have been for the third Ruins note for
18	context of which we were the context of which this loan	18	\$600,000 in February of 2023.
19	request was the situation surrounding and the context, it	19	Q And is there anything in this document that confirms
20	was very unusual with the borrower coming back multiple	20	for you or your customer what the purpose of the loan
21	times for money, having the altercation, if you can call it	21	proceed is for?
22	that. So this was a way to control risk.	22	A Yep. So this document
23	Q So what purpose would it have served to put so many	23	Q The loan disbursement. Sorry.
24	entities on the third note if you didn't do it on the first	24	A Yep, and so the middle part of the document, so the
25	and second Ruins notes?	25	primary purpose of the loan is for business purposes, and so
	Page 63		Page 65
1	A Can you rephrase that?	1	the borrowers, so all the entities that would be above would
2	Q So what purpose from your perspective as a banker,	2	be attesting to this document and would sign. So if you
3	what was the benefit to the bank of putting so many	3	scroll down, you'll see the signatures. But in the middle
4	borrowers on the third Ruins note?	4	it says you can scroll. Sorry. So in the middle it says
5	A What was the benefit?	5	amount paid to borrower directly. So this is how we're
6	Q If you can't recall, that's fine. We can move on.	6	disbursing \$600,000 via cashier's check payable to Craig
7	A I just don't know how to put it into words.	7	Development LLC for payable to Ruins Project. So it's
8	Q You've testified a lot about your role at the bank	8	showing in banking, everything's about documentation. So
9	being one of risk management or specifically working on loan	9	it's showing the money flow in a very transparent way and
10	files. I think you used the word sideways. Loans that are	10	the purpose of having all the entities attached from a risk
11	moving sideways or projects that are moving sideways. Is	11	mitigation standpoint. So all those entities would be
12	that a factor in why you put multiple borrowers on this	12	attesting that they're going to use the funds according to
13	note, made them principal obligors of this note?	13	what's written out there. And so if you scroll down, they
14	A This is just from my memory from two and a half years	14	would all sign.
15	ago, over two and a half years ago. In lending, your gut is	15	Q And is so if this loan was intended to be used for
16	highly accurate. But when you so as a banker, we're	16	anything other than The Ruins project, would the form be
17	supposed to review documentation and be accurate. And we	17	different? This form confirms that it's not personal in
18	assume that the documentation that we're looking at, there's	18	nature?
19	integrity built in the system. We assume that what we	19	A The funds are supposed to be used according to what the
20	receive is correct within a reasonable degree. My gut was	20	form and the borrowers attest to. Any deviation from that
21	saying at the time something feels off, but based on the	21	is outside of what they're signing for.
22	documentation that we had in the file at the time, you know,	22	Q Thank you. I'm going to ask you some questions now
23	the reasonable side of your brain saying it's fine, you	23	about bank records that you've subpoenaed or you've asked
24	know, based on documentation, but your gut's saying	24	your counsel to subpoena in this case. Did you instruct
25	something different. So this was a way, in another way of	25	your counsel to subpoena documents directly from banking

3	any of the entities listed on the third Ruins note?	3	BY MS. TANABE:
4	A Yes.	4	Q Do you recognize this summary?
5	Q And did I think you previously testified that FCCU,	5	A Yes. It's transfers from the Red River State Bank
6	that's First Community Credit Union, had provided documents	6	Ruins account to the FCC or First Community Credit Union
7	in response to your subpoena?	7	Craig accounts.
8	A Yes, they did.	8	Q And what does Craig accounts mean to you?
9	Q And approximately how many pages did you receive,	9	A There primarily was two accounts at FCCU, or First
10	subpoenaed documents did you receive?	10	Community Credit Union, that funds were deposited in or move
11	A Pages?	11	to. So it's kind of a general term for Craig Properties and
12	Q Yeah.	12	Craig Development.
13	A There was over 25,000 pages, but yeah, over 25,000	13	Q And so Craig Properties and Craig Development are not
14	pages. It was a lot of documentation. But there was 24	14	the same as The Ruins?
15	files.	15	A No, they're separate legal entities.
16	Q What do you mean by 24 files? Is that 24 different	16	Q Why would well, how much was transferred out of The
17	accounts or	17	Ruins account into the Craig accounts based on this summary?
18	A Yep, 24 different so the bank, when they put	18	A Based on this summary, \$3,617,312.75.
19	together the subpoena request, they broke it out into 24	19	MS. TANABE: Okay. Sharon, would you scroll down
20	files. And largely I reviewed the Craig Properties and the	20	to Exhibit B, please? We'll go to I think it's Page 28 at
21	Craig Development because that's where the activity largely	21	the top of the page in blue. It will be Exhibit B. There
22	was.	22	we go.
23	Q Okay. So you personally reviewed some of the subpoena	23	BY MS. TANABE:
24	documents or	24	Q Is that okay, and do you recognize this document?
25	A Yup. Hours and hours of my life.	25	A Yes.
	Page 67		Page 69
1	Q And in your experience as a loan officer, is it typical	1	MS. TANABE: And, Sharon, would you scroll slowly
2	for loan proceeds for a construction project to be	2	through it.
3	commingled with other projects?	3	BY MS. TANABE:
4	A No.	4	Q Once you get your bearings, Danielle, can you tell me
5	MR. VERSTANDIG: Objection to the word commingled,	5	what this table shows?
6	· ·	6	A Yep. These are transfers made to Jesse Craig that
7	synonym is used.	7	either had an ending deposit location of either Craig
8	THE COURT: I think commingle has both a legal and	8	Development or Craig Properties.
9	a layperson connotation. So I'm going to overrule.	9	Q So this is money that would have been transferred to
10	MR. VERSTANDIG: Thank you, Your Honor.	10	him individually?
11	THE WITNESS: It's unusual to commingle. It's	11	A Correct.
	irregular.	12	Q And what's the total amount of the transfers on this
13	BY MS. TANABE:	13	chart?
14	Q So you testified that you review a lot of special	14	A The total amount between the two different accounts
15	assets related files. Would you think of that as a red flag	15	made to Jesse Craig was \$191,513.05.
	in your experience?	16	Q Thank you.
17	A That would be a red flag. It's against best practices	17	MS. TANABE: And, Sharon, would you please go to
18	for accounting. Yeah.	18	Exhibit C?
19	MS. TANABE: Okay. Let's maybe go to Sharon,	19	BY MS. TANABE:
20	could you go to ECF Number 177-1, Exhibit A? I'm going to	20	Q Do you recognize this?
21	go through this quickly. Counsel has already stipulated to	21	A Yep.

	3	the other classes. I just know offhand that's not going to	3	takeout financing was possible and that your unsecured claim
	4	globally cash flow.	4	would actually get paid? How much would that injection need
	5	Q So do you believe that the plan would default or. I	5	to be for you to believe that your plan, your unsecured
	6	mean, sorry. Do you believe that the debtor would fail to	6	claim would be paid?
	7	make the payments and that you would end up in another	7	A Can you rephrase that because my mind goes in two
	8	Default situation with The Ruins.	8	different directions related to your question.
	9	A So when the underlying property does not have enough	9	Q So you've stated that you don't think the debtor's
	10	cash flow, it typically waterfalls over to the guarantors.	10	financial conditions would make takeout financing likely and
	11	And that's the exact situation that we're in here, is we	11	that if you have an unsecured claim in the case, which you
	12	weren't getting payments. So I don't think things are going	12	anticipate you will, you've said that you don't think it
	13	to change in the future where they're going to supplement	13	will get paid off by takeout financing. And I think you
	14	any cash flows they would have already.	14	started to say, but I'm not sure. So I'm asking you, do you
	15	Q Okay. So if the plan was a new loan proposal, would	15	know what changes the debtor could make to the plan that
	16	you approve it?	16	would make you believe the takeout financing would benefit
	17	A No, no, not on these terms at all.	17	your claim or pay your claim?
	18	Q Would the risk of payment default be acceptable or	18	MR. VERSTANDIG: Objection, Relevance. And to a
	19	unacceptable to you? As an experienced lender.	19	lesser degree, speculation. I think part of the question
	20	A It would be well outside the risk parameters that a	20	sheds light on the inappropriateness of this witness for the
	21	normal bank would underwrite on.	21	interpretation of a plan. The question is premised in part
	22	Q Okay. Thank you. I'm going to switch gears a little	22	upon the idea that part of the claim may be unsecured. The
	23	bit now. The plan also talks about the concept of takeout	23	foundation laid assumes a forward looking role of interest
	24	financing. Would it help you to look at that definition in	24	on the totality of the bank's claim. Now, if a legal expert
	25	the plan or do you know what that means?	25	were to opine on a Chapter 11 plan, they would note that
ŀ		Page 103		Page 105
	1	A If you could bring it up, that'd be helpful.	1	there isn't going to be an accrual of a trespass petition on
	2	Q It's in the definition section at the beginning of the	2	the unsecured portion of a claim. But presumably, and I
	3	document, so we could scroll backward. They're alphabetized	3	haven't asked the witness, I don't think she'd be aware of
	4	at takeout. Oh, we just passed it. There it is. It's	4	that, nor should she be aware of that, nor is that within a
	5	double M there at the top of the page. Does that help to	5	banker's field. So we're asking a lay witness to opine on a
	6	remind you?	6	Chapter 11 plan. I think it was reasonable to ask what the
	7	A Yes.	7	cash flow would need to be. It's reasonable to ask what
	8	Q Okay. So. From your perspective As a Class 1 creditor	8	equity injection would give the bank comfort or confidence.
	9	with a claim in excess of \$11 million, how confident are you	9	But asking what legal tweaks would be made to a legal
	10	that the debtor would be able to get take out financing as	10	document in a hypothetical universe just seems outside the
	11	it's described in the plan?	11	normative contours of what's appropriate.
	12	A I don't have any confidence that based on the asset	12	MS. TANABE: Should I respond?
	13	value of the last appraisal using, I mean, even using	13	THE COURT: Sure you can.
	14	today's numbers compared to what the secured amount of our	14	MS. TANABE: Yes, I'm asking her about her claim
	15	claim is, the 11 million or even future looking, the debt is	15	and the likelihood that she perceives that her claim will be
	16	going to be way in excess of what you can finance. There's	16	paid in full by the plan.
	17	going to have to be a significant haircut.	17	THE COURT: Right. And your focus here is on
	18	Q So if the bank was to end up with an unsecured	18	takeout financing. And her expertise is as a banker in
	19	deficiency claim in this case, and the debtor purports to	19	financing.
	20	have a 100 cent claim or 100 cent plan where they're going	20	MR. VERSTANDIG: So.

2	THE COURT: Okay, sure.	2	the proper property is one of them and the net operating
3	BY MS. TANABE:	3	income of the property is another. Those are two really key
4	Q Try again. Okay. That was a lot of words. So let's	4	pieces how that relates to our \$11 million claim the
5	bring us back to where we were. Do you know the value of	5	property. So a bank, when they're underwriting, they would
6	your. The current amount of your allowed claim in the case	6	look at the property at \$7,070,000 and your max loan-to-
7	and under the plan?	7	value on that would be 5,302,000. So, you know, that's a 6
8	A I believe it's 11 million 90.	8	million dollar difference. That would have to.
9	Q And you're aware that the debtors plan purports to pay	9	Theoretically, an equity injection to bridge the difference
10	all claims in full?	10	just on our amount based on. I mean, I don't know if that's
11	A Correct.	11	what you're asking.
12	Q And how confident are you that takeout financing would	12	Q What was the last part you said about it? Did you say
13	be available to pay your claim in full?	13	equity injection? Yeah.
14	A I the prop. Just on our claim based on the 11 million	14	A It'd have to be cash. Something has to bridge the gap.
15	building in the normal equity margin, that mean. That means	15	Because if the Property's only worth 7 million, but our
16	the property would have to go up to 13,862,500 about. So	16	claim's 11, the bank's going to be using the 7,070,000,
17	either that or from like a. Yeah, I have nothing further to	17	assuming that's what the amount on the appraisal was as
18	say on that. Sorry.	18	completed value. This is assuming takeout financing. So
19	Q Okay. So you're not confident that the billing will go	19	you work it backwards because you need a 25 percent equity
20	up in value and enough to make takeout financing pay your	20	cushion. And so if you work that backwards, that max loan
21	claim in full.	21	amount is 5.3 million. And so between 5.3 million and 11
22	A When I read the plan document, including all the	22	million for us to be made whole, something's got to come up
23	numbers for all the different classes, it got to like 15.9	23	with the difference. What's going to come up with the
24	million. Which means if you work that backwards based on	24	difference? I mean, the only thing that could possibly be
25	the equity factor, the property would have to appreciate to	25	would be a property appreciation. But going from 7 million
		23	
	Page 107	١.	Page 10
1	22 million based on the current debt level, assuming 100	1	to. I think I said 13 million to take out our claim by the
	percent payout. That was my understanding.		what, the required equity portion. Normal, based on normal
3	Q And in from your perspective as a bank, would you be	3	rates and terms and conditions. And you could make the
4	willing to offer that type of takeout financing for The	4	argument that bankruptcy may not be normal rates and term
5	Ruins?	5	condition type, but 25 percent. Something's got to bridge
6	A No, not based on the appraised value.	6	the gap. You follow me?
7	Q Okay, and would it matter if. Would your answer change	7	Q Okay. So you used the phrase equity injection. Can
8	if there was a capital contribution from the building owner?	8	you just say in simple terms what that would mean?
9	A Would it change from just Red River's perspective?	9	A Cash or cash equivalents.
0	Q Yeah. From the bank's perspective, if the building	10	Q And where would equity injections come from typically?
1	doesn't go up in value, is there anything else that would	11	Or who would it come from?
2	make you believe that the takeout financing could pay your	12	THE COURT: Sorry?
3	\$11 million claim in full?	13	A Typically they come from the ownership group, the
4	A Sorry, you're asking the question kind of from a	14	guarantors.
15	backwards standpoint because my brain has to convert because	15	Q And how much did you say that equity injection would
6	there's multiple things at play here. So just using \$11	16	
7	million. So if you're assuming the value of the property is	17	A I think it's around 6. Well, 5.3. So let me write
8	at \$7,070,000 I think is which was the appraised amount	18	this number down. So if our secured claim amount is
9	for as completed, I believe the total value of the I	19	11,090,000 and the max loan amount is 5,302,500, the net
20	don't know how to answer this in a concise way because the	20	difference between those two numbers is 5,787,500, which
_	·		
1	decisioning kind of bifurcates and like you can't sometimes	21	would have to be some sort of an equity injection because

28 (Pages 106 - 109)

22 that's when you determine the 7 million as the asset value

23 for completed. You have to have a 25 percent equity

24 cushion. So that's how you get to the 5.3. So that's the

25 net difference. So something would need to bridge the gap.

22 when you're underwriting something, one invalidates the

23 other because you need both talking equity and cash flow.

24 So I'm struggling kind of mentally going through this

25 exercise. Just with which benchmark rates or which

10	comment. For the record, I want to be very clear that	10	to appraise the TIF in one of the four reports?
11	either counsel's about to read or ask the witness to read	11	A So in the last report. From the bank's perspective,
12	into the record something from a creditor plan three days	12	the TIF is largely irrelevant from a. For what our exercise
13	before the exclusivity date.	13	was we were trying to value the property. And since the
14	THE COURT: I think it's more than three days. I	14	or since the future revenue streams had been assigned, that

18	Q Okay, we can take it down. It's fine.	18	Q Okay. Thank you. Has the bank actually received any

20	Q And okay. So are you familiar with the WDC's claim in	20	A No, we've not received any TIF revenue.
21	this case?	21	Q Okay, and I just have one more question. Or one. Just
22	A Yes.	22	a couple questions on one topic. So for housekeeping
23	Q Okay, and are you familiar with the TIF.	23	purposes, I think we're nearing the end of this line of

13	terms, yeah, you could say we own those future revenues.	13	for the fourth report?
14	Q Okay, and when Mr. Luther was testifying, he was asked	14	A Yes, we did. The first three reports, that was the

My concern is, what I don't understand is if is whether the bank has to reveal whether any other participant would or would not vote. If it's the one extending the vote, is there something, there might be something that I don't understand in that regard to frame the relevance of this. So Mr. VerStandig, is the bank obligated to provide debtors with the background of whether the participants would vote for the plan? If it has the vote for the plan, do participants get to vote? I don't know. Is that a thing? MR. VERSTANDIG: The interest, best I understand it is it would depend on the participation agreement.
